Idea Mapper Teaching Tips

Connecting Themes in History

Learning Objective
Students will create an idea map to identify themes and ideas connecting the biographies of one or more Wisconsinites.

Sample Essential Questions
How are people connected in time through history?
How am I connected to those from the past?

Standards
Wisconsin Standards for Social Studies
SS.Hist2.a.i Describe patterns of continuity over time in the community, state, and the United States.
SS.Hist2.b.i Describe patterns of change over time in the community, state, and the United States.

Common Core in English Language Arts
RI.4.1 Refer to details and examples in a text when explaining what the text says explicitly and when drawing inferences from the text.
RI.4.2 Determine the main idea of a text and explain how it is supported by key details; summarize the text.

Procedure
This activity can be done using any of the following idea maps: Web, Topic Chart, and Venn Diagram.

Instruct students to choose two or three people featured in Wisconsin Biographies. Then have students read the biography or watch the animation of the selected people. Next, tell students to analyze the texts for which themes and ideas were shared in the stories. Finally, instruct students to create an idea map using images and text to show the stories’ common themes and ideas.

As a modification, students may choose to do this activity using information about them, connecting themselves to the themes and ideas in Wisconsin Biographies.

Example

![Causing Change](image)
Identifying Significant Events

Learning Objective
Students will analyze a text for significant events and sequentially organizing the events in an idea map in order to summarize a biography.

Sample Essential Questions
What makes something significant or important?
What causes change?

Standards
Wisconsin Standards for Social Studies
SS.Hist2.c.i Analyze individuals, groups, and events to understand why their contributions are important to historical change and/or continuity.

Common Core in English Language Arts
RI.4.5 Describe the overall structure (e.g., chronology, comparison, cause/effect, problem/solution) of events, ideas, concepts, or information in a text or part of a text.
RI.4.9 Integrate information from two texts on the same topic in order to write or speak about the subject knowledgeably.

Procedure
This activity can be done using any of the following idea maps: Plot diagram and Timeline.

Have students either read a biography or watch an animation from Wisconsin Biographies. While they are watching or reading, tell the learners to make a list of the story’s important events. Then instruct students to circle or highlight the three to five most significant events. Finally, have students use Idea Mapper to create a graphic organizer detailing the selected events.

Example
Analyzing Change: Cause and Effect

Learning Objective
Students will identify actions that led to other events and organize them in an idea map.

Sample Essential Questions
How can examining cause-effect relationships from the past help you understand the present?
What motivates people to take action?

Standards
Wisconsin Standards for Social Studies
SS.Hist1.a.i Use evidence to draw conclusions about probable causes of historical events, issues, and problems.
SS.Hist1.b.i Use evidence to draw conclusions about probable effects of historical events, issues, and problems.

Common Core in English Language Arts
RI.4.1 Refer to details and examples in a text when explaining what the text says explicitly and when drawing inferences from the text.
RI.4.5 Describe the overall structure (e.g., chronology, comparison, cause/effect, problem/solution) of events, ideas, concepts, or information in a text or part of a text.

Procedure
This activity can be done using the following idea maps: Cause-Effect

Instruct learners to read a biography or watch an animation from Wisconsin Biographies. Next, have them identify one to three instances of cause and effect relationships in the text. If students are reading a biography, have them cite the page number where they discovered the information. Students must then use text and images to describe the events (or the cause) and the effects using the Idea Mapper’s Cause-Effect chart. They will also include the biography’s page number if applicable.
